

**HumanCare Pathlabs Pvt. Ltd.**  
International Standard Reports - Trusted Worldwide

# MAKING GOOD HEALTH YOUR NEW WAY OF LIFE

International Laboratory  
Accreditation Cooperation

**NABL**  
MC - 10015

HumanCare Pathlabs Pvt. Ltd. is a NABL-accredited medical laboratory operating in full compliance with ISO 15189 standards, reflecting our commitment to the highest levels of quality and technical competence. As the National Accreditation Board for Testing and Calibration Laboratories (NABL) is a signatory to the International Laboratory Accreditation Cooperation Mutual Recognition Arrangement (ILAC-MRA), our diagnostic reports are internationally recognized and accepted across all ILAC member countries. This global recognition ensures that our patients and healthcare partners receive accurate, reliable, and consistently high-quality diagnostic results that meet internationally accepted benchmarks—supporting confident clinical decisions wherever they are needed.

## WHY CHOOSE US?

- ✓ Comprehensive test menu performed as per defined Standard Operating Procedures (SOPs)
- ✓ Use of validated, calibrated, and maintained laboratory equipment
- ✓ Structured home and on-site sample collection services with full traceability
- ✓ Timely reporting supported by internal quality control processes
- ✓ Qualified and trained laboratory professionals

# EXPERIENCE IN PRE-EMPLOYMENT HEALTH ASSESSMENTS

HumanCare Pathlabs Pvt. Ltd. provides structured medical and pre-medical diagnostic services with a strong focus on pre-employment and occupational health assessments. Our services are designed to support employers in evaluating the health and fitness of candidates across a wide range of industries, including manufacturing, healthcare, IT, and service sectors.

We offer a comprehensive range of investigations essential for occupational health evaluation, including blood tests, radiology, cardiac assessments, pulmonary function testing, and audiometry. All assessments are conducted using defined protocols to ensure consistency, reliability, and confidentiality.

Our laboratory operates with a structured quality management system and follows applicable national and international laboratory standards. The laboratory is currently in the process of obtaining NABL accreditation for medical laboratory services.

Test results are generated following standardized procedures and internal quality checks, enabling employers and organizations to make informed occupational health and safety decisions.

## Our Clients

We provide medical and pre-medical diagnostic services to a wide range of corporate, institutional, insurance, and international clients. Our services include pre-employment health assessments, periodic employee health evaluations, and insurance-related medical testing.

Client names are mentioned with due consent and for informational purposes only.

### Corporate Clients

#### 1. Reliance Jio

Pre-employment Health Checkups across multiple locations

#### 2. Wow Momo

Annual Health Checkups for employees nationwide

#### 3. Medi Buddy

Comprehensive health checkups and wellness programs

### Insurance Clients

- LIC of India
- ICICI Lombard
- ICICI Prudential
- Max Bupa
- Care Health Insurance
- Third-Party Administrators (TPAs)
- Vidal ● Health India
- MD India ● SafeWay

### International Clients

#### 1. Sahara International (Kuwait)

o Services: Pre-medical health checkups for individuals traveling to Kuwait.

#### 1. Chaitanya Enterprises (New Delhi)

o Services: Pre-medical health checkups for individuals traveling to Congo, and Azerbaijan

#### 2. Oreon Secure (Kuwait, UAE, and Western countries)

o Services: Health assessments and certifications for international employment.

#### 3. Al Sartaj International

#### 4. AB International

o Regions: UAE, Kuwait, Qatar, and Western countries.

#### 5. ARC Man Power

o Regions: UAE, Kuwait, Qatar, Iraq, and Western countries.

#### 6. New Marhaba Overseas

o Regions: UAE, Kuwait, Qatar, and Western countries.

#### 7. T Garments

o Special Region: Jordan.

# WORDS FROM THE DIRECTOR

**S. A. Rahim**

M. Sc. Clinical Microbiology

As Director of our diagnostic center, I am proud to lead a facility dedicated to precision, reliability, and patient-centered care. Our laboratory is NABL-accredited and compliant with ISO 15189 standards, reflecting our adherence to globally accepted quality and technical benchmarks. As NABL is a signatory to the International Laboratory Accreditation Cooperation Mutual Recognition Arrangement (ILAC-MRA), our diagnostic reports are internationally recognized across ILAC member countries.

Our team operates within clearly defined quality policies, standardized procedures, and a culture of continual improvement to ensure consistently accurate and dependable diagnostic outcomes. We remain firmly committed to integrity, confidentiality, and responsible laboratory practices, striving to be a trusted partner in every patient's healthcare journey.

## DIAGNOSTIC CENTER & TECHNOLOGY

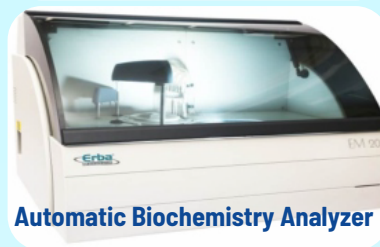

### Laboratory & Diagnostic Equipment

- Fully Automated Biochemistry Analyzer
- Semi-Automatic Biochemistry Analyzer
- Fully Automated Hematology Analyzer
- Fully Automated Electrolyte Analyzer
- Semi-Automatic Coagulation Analyzer
- Digital Radiography (Portable DR System)
- Pulmonary Function Test (PFT) Equipment
- 24-Hour Ambulatory Blood Pressure Monitoring (ABPM)
- Audiometry System
- 24-Hour Holter Monitoring System

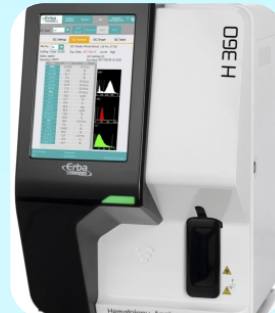

All laboratory instruments are operated, calibrated, and maintained in accordance with manufacturer recommendations and documented internal quality procedures.

## Diagnostic Services Supported

- Biochemical analysis
- Hematological evaluations
- Electrolyte assessments
- Coagulation testing
- Radiological imaging
- Respiratory function testing
- Cardiovascular monitoring
- Audiological assessments

# HOME COLLECTION & SPECIALIZED DIAGNOSTIC SERVICES

- Home and on-site diagnostic services are provided by trained personnel following defined safety, patient identification, and sample handling protocols.

## ECG

(Electrocardiogram)

A non-invasive test that records the electrical activity of the heart for clinical assessment.

## PFT

(Pulmonary Function Test)

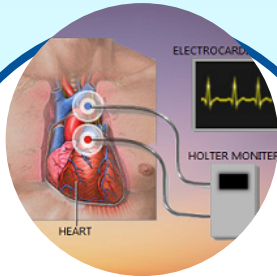

A group of tests used to assess lung function and respiratory capacity.

## EEG

(Electroencephalogram)

A diagnostic test used to evaluate electrical activity in the brain and assist in neurological assessment.

## HOLTER MONITORING

Continuous heart rhythm monitoring over 24 hours to evaluate cardiac activity.

## NCV

(Nerve Conduction Velocity)

A test used to evaluate the speed and strength of electrical signals in nerves.

## ABPM

(Ambulatory Blood Pressure Monitoring)

Continuous blood pressure measurement during normal daily activities.

## EMG

(Electromyography)

A diagnostic procedure that assesses muscle response to nerve stimulation.

## SLEEP STUDY

A comprehensive test that records physiological parameters during sleep.

## Digital X-Ray

Portable digital radiography services performed by qualified personnel following radiation safety guidelines and applicable regulatory norms.
